SEEN, HEARD & TOLD BY THE EDITOR

We cannot but speak the things which we have seen and heard. Acts 4:20

Folks CAN stop drinking licker to excess. Bill Cunningham HAS stopped for a good many months. Every one of his legion of friends hopes he has stopped permanently. Bill has become a real useful citizen. He was a big help in the latest drive for blood. Currently he is a big help, particularly in the Holcomb area in the Red Cross Drive. His preacher says he is taking a big interest in church work there. Bill's first allegiance seems to be to Bill Hannon in selling Ford cars, but he spends other time with Orley Lilly selling Ford tractors, also some time with Earl White in selling refrigerators. Bill, too, Gets Around.

Next week is Soil Conservation Week. Soil conservation is not a Grenada County problem, or a Mississippi problem or a national problem, but a worldwide problem. Population, or mouths to feed, has been increasing, while arable land has been decreasing. Conservation of existing soil and rebuilding of new soil are the ONLY answers and therin is the very heart of the whole effort of conservators of the soil.

In opening up this then new country, there was what appeared to be a limitless expanse of new, fresh land, ever to the West. That's gone now, so taking care of the old land is a national MUST.

Marie Potera is another one we dont have to waste a 3-cent stamp on Marie, too, knows what these little numerals mean.

Lt. Mickey Hayward has transferred fighting his fine war from England to Barksdale Field. We were disappointed that he did not date Princess Margaret Rose in England, and so was Mickey.

Harold E. Smith, seaman, USN, was a participant in Operation Rendezvous in the Mediterranean Sea during the latter part of March. His home, 1228 Poplar, Grenada.

In getting Cecil Penn as his wife, Brother Cameron of Meridian got one of the most kind-hearted, young est-looking wimmen in Grenada. Our very best wishes to them.

Little by little, we are getting all the Littles, the latest being H. B. Little of the free state.

Welcome to T. M. Clogston, who took the GCW all during the war, now gets it in Trumann, Arkansas. They spell it that way so as not to get mixed up with Harry, I guess.

Gus Chapuis' boy, Richard, in Pascagoula is now getting the GCW. On our list is a heap of Chapuis', yet we could squeeze in a few more.

On the 1st of April, the wimmen folks kept us alive by renewing: Ada Cooper of Grenada; Mesdames R. J. Hagey and D. W. Huggins of Memphis; Mrs. Tom Bradley of Seattle and Mrs. Rothbert of Ft. Dodge, Iowa.

I often think of what Uncle Whyte Whitaker said: he said he always took off his hat in the presence of a heifer calf, a sow pig and a hen - that there was hope for the future in them.

One sign of better times in the county can be found in the length of the delinquent tax list. This year it occupies less than 1-5 page. Back in the 1930's when I was running the old Sentinel I have seen the list require almost two full pages.

While Sam Wade and I see most all of the pictures anyway, I am going to be sure to see the President's lady next week, because it is the story of my great great aunt, Rachel Donelson Jackson. She was Grandmaw Whitaker's aunt. Grandmaw spent a good deal of her girlhood visited her aunt in the Hermitage.

Rice Pressgrove and Bill Cunningham, mentioned recently, aint the only ones who seem to have quit drinking licker. Look at Bryan Baker. Look at Harny Gammon. Look at Bob Townes. Look at Whyte Jr. Just keep your fingers crossed on all of 'em.

Under the capable direction of George Lambert, master carpenter, Monte Cristo Motor Courts is adding 12 units to their modern court. Mabel and I make a habit of stopping in the best places we can find at night, when we are on a trip, but have never seen any better than Monte Cristo has right here in Grenada.

Congratulations to the State Highway Department which is now engaged in making a straight crossing of No. 8 and No. 51, eliminating that wierd and dangerous arrangement that travelers have learned to dread. It is assumed a stop and go light will be placed there.

INDEPENDENTS BEGIN SPRING PRACTICE

Baseball Team Needs Support Of City

This is the time of the year when the words "play ball" spell magic to both players and fans.

The Grenada Independents, baseball team composed of only local youths, have begun practice and are needing the support of the City.

They want to play so badly they have bought their own shoes, caps and gloves. They are ready and willing to give their best performance.

But they need help. The grandstand and fences at the Fairgrounds need repairing. A concession stand and ticket booth should be built.

Many believe that the City should give financial help to the team as readily as it does to the swimming pool fund.

The Independents plan to have games with Water Valley, Oxford, Batesville, Winona and Hardy.

Among those who will be on the diamond this summer are: Bryce Griffis, Billy Wells, Paul McElroy, James Edward Jones, Joel Edwards, Arty Hendrix and L. C. Hendrix.

Leroy Stokes, Grenada Oil Mill employee, is business manager; J. W. Mayhan, assistant business mgr.; Bobby Morgan, ass't field mgr.; and Walter Dean Vick, field manager.

At the end of the season, if there is any money left, it will be divided equally between the players and the club officers.

—BROOM SALE IS TUESDAY—

The Grenada Lions Club will conduct a Broom Sale throughout the City of Grenada Tuesday, April 7, for the purpose of raising funds for the club's sight conservation program. The brooms to be sold are manufactured by the Mississippi Industries for the Blind of Jackson.

Brooms will be available in both home and business size., and in a variety of colors. The residential brooms will sell at $2.00 and the business brooms at $2.50. In addition the Lions will have door mats, also made by the blind of Mississippi, for sale at $2.25.

Charley Farrell, distribution chairman, has announced that the entire city of Grenada will be canvassed. Anyone in the County outside of Grenada who wishes to help the Lions by purchasing a broom is asked to contact Mr. Farrell, or any member of the distribution committee composed of Eddie Nored, Julian Lockett, Ira Parks and Anderson Snider. Arrangements will be made to deliver the brooms on Tuesday, April 7.

Your purchase of a broom or door mat will be helping the Grenada Lions Club to help some Grenada County person in need of sight conservation treatment, and will help the Mississippi Industries for the Blind, which is doing an outstanding service for the blind of Mississippi.

To confess the truth, this Spring weather is making me lazIER. I spend a heap of time just sitting, and some time sitting & thinking (about fishing).

—New Subdivision?—

As of Wednesday of this week, Rodney Defenbaugh became owner of about 8 acres of the Pearson old property laying along new No. 8 Highway west of Grenada.

Mr. Defenbaugh's tract is substantially that part of the Pearson old dairy farm lying West of the corporate limits of Grenada and North of the right-of-way of No. 8 State Hiway 8.

While plans are necessarily incomplete, it is believed that the tract will be subdivided and sold into building lots.

The price paid for the land was not disclosed.

Car Th... and Asleep By River

A remarkable example of cooperationn between the various law enforcement officers of Grenada resulted in the arrest of two young car thieves from Texas on Tuesday.

On Tuesday morning, Moon Mullins phoned Patrolman Wayne Wenger to come out on the highway because he had a collision with a car from Texas.

When Patrolman Wenger arrived, the occupants of the Texas car had fled into the woods and disappeared.

A little while later, Jinx Taylor called Sheriff Speck Davis and said he saw the two young men trying to catch a ride. When Mr. Davis got there, he found that the boys had caught a ride in a pick up truck.

Meanwhile the City Police were alerted and three investigators from the State Highway Patrol were sent here from Jackson.

While the car was being checked for fingerprints at the Ford place, John Ben Perry overheard the conversation about the stolen car and the missing occupants.

When he returned to work at his oil mill, some of his Negro workers told him that two young white men were asleep behind the oil mill on the river bank.

Mr. Perry called the Patrol and they found the men still asleep.

The men, A. J. Bieker 20, and Joseph Bell, 24, confessed to stealing the car at Houston, Texas. They are being held in the Leflore County Jail awaiting the arrival of Texas authorities.

Bieker had been out of the Texas State Penitentiary four months and Bell, 5 days when they stole the car. They had been serving sentences for stealing cars.

LAWRENCE YEAGER DIES IN MEMPHIS

Native Of This County; Was Once Tax Assessor

Lawrence Yeager, 63, died in Memphis last week. He was the son of the late Mr. and Mrs. Lewis Yeager of Beat Three.

In the early 1920's he served Grenada County as tax assessor and, for a good many years, made his home in Holcomb where, as a part-time occupation, he operated the gin there.

Unless the writer is in error, Mr. Yeager married a Miss Moore of the southern part of Beat 5. They had a son and several daughters, some of whom are in the Greenwood area, as is the widow.

We regret that we have no other details.

MRS. IDA BELLE HOWARD DIES AT 86

Mother Of 15 Children; Has 98 Descendents

ELNORA DICKENS DIES

On Wednesday, March 25, Elnora Dickins died at Grenada Hospital after a long illness. She was buried in Starkville, Miss. She was a member of the New Hope Baptist Church.

The deceased was the daughter of Mack Hogan and the late Sivilla Hogan, well known Negro citizens of Grenada.

Elnora was known to her many friends as "Blossom", and many grieve that she suffered so long and patiently. She was faithful servant of Rev. and Mrs. E. L. Malone, also of Dr. and Mrs. R. A. Clanton and Mrs. Frank Gerard.

If the word, agenda, means things I want to do and expect to do, then, to my agenda, I add seeing how Emmanuel Church is getting on with its new church house. What with Kirk, Grenada Industries and Jim Keeton, my agenda is already full and running over.

After reading the first part of Cliff Hamby's roach & minnow column, I thought, oh, hell, the old bolshevik is off again. Reading on, I found that he was quite conciliatory and had a fine, sensible piece and gave hell to nobody. I'll bet Homer Williams will be happy about it.

Thoughts Of Spring

By Anne W. Frye

If Spring returns, can flowers bloom
among Korean graves?
Can joy and hope resurge in hearts
that cower in the caves?
Can soldiers, bone-tired, heart sick
grim, recapture lost ideals?
Can each man's native land repay
the sacrifice he feels?
I do not know. Yet these are true
as areas are freed.
The devastated land resounds to
voices cheered, indeed.
As folk come straggling weary, lame
yet happy to be home
To build their shattered huts anew,
replant the blasted loam.
As servicemen on leave return to
family's embrace.
And reestablish what they left to
aid an alien race.
As God and time heal up the wounds
of those who save and lose.
And they in turn, more gentle grow
in quiet strength which rises.
Far more than other people know
it makes a strong soul great.
It also kills a weaker soul, which
dies in bitter hate.
Yes, these are true: as also true that
Jesus, crucified.
Did rise again and ever lives, death's
victory defied.
So Spring returns, and with it hope,
and flowers bloom anew—
The Resurrection symbols mid war's
devastation's rue:
Through sin and sorrow's Winter
breaks the light of hope to say
That sometime man can rise above
this evil, brutal day.

Trucker Arrested For Arson

J. H. McCluskey, Greenwood trucker, has confessed to arson in the burning of his 1951 ton and half Ford pickup, according to Sheriff Speck Davis.

Sheriff Davis went to Greenwood and arrested McCluskey, brought him to the Grenada jail where he made his confession to County Attorney Bill Fedric, Fire Marshall D. W. Snyder and Sheriff Davis.

In his confession, he stated that he had poured five or six gallons of gasoline on his truck and set fire to it. He was on his way to Oxford to have the truck, which had given him a lot of trouble, repaired.

In Judge Bryan Baker's Court, he plead guilty to a charge of arson and his bond was set at $1,000 and he is awaiting the action of the Grand Jury.

—Referendum in Holly Springs—

TIME reports that, in nearby Holly Springs, Police Chief Jimmie Warren explained why the streets are lined with unused parking meters: "A good salesman sold the city the meters, but they were very unpopular. By common consent nobody puts a coin in, and nobody gets a ticket."

SPORTSMAN COLUMN
(By C. C. Hamby, Sr.)

Turkey season opens on April 1st and runs through April 10th. One gobbler, only, is allowed per person during the season. This does not mean that you can go down in the Black Hawk bottom and kill you a gobbler. NO OPEN SEASON around this territory. I understand turkeys are plentiful over on the Mississippi River in the big wooded areas, but you and I can't go over there; only on special invitation, because every foot of the land from above Clarksdale down to Natchez is posted by some private clubs or wildlife leagues. This should caution all of us if we don't wake up and have a strong league, or club or if you are not a member of some club or league, you and I won't be able to kill us a rabbit. The time is coming and not too far off that we will not be able to hunt anything anywhere unless you belong to some club or league, or a government reservation.

Homer Williams has spent a large sum of money, not counting the worries, trouble, grief, etc. on turkeys (wild turkeys) on his land in Oxberry bottom known as the Double Cypress Club. If I understand it right he now has close to 60 or 75 turkeys and if he does have success with his flock of turkeys, and if the general public will cooperate with Homer and help protect these turkeys, and report anyone else that does kill or injury one of his turkeys, it won't be but a few years before we can say there are plenty of turkeys all over Black Hawk Bottom. Because Homer can't teil his turkeys to stay on Double Cypress Club land altogether, as they are going to stray all over the bottom and when this happens we can and will get an open season on turkeys in Black Hawk Bottom.

Attention all set hook and trot line fishermen. Cat fish are beginning to bite. Those that fished for cat fish over the weekend caught several cat fish using large gold fish for bait. Crappie fishermen were out in droves over the weekend, the old timer, hard fishermen had no trouble in catching those nice slab crappie. Three of the Bain boys, as usual, caught several nice strings. Two days of fishing netted them around 70 to 75 crappie. Sam Irby caught 18 or 19; Jack Webb, Ruly Lamar, the Hamby's and several more had one of the biggest catches of this season. Jim Provine was the only one out of 50 to go fishing, carried his reel and rod and tried casting for bass. He was well paid off in doing so, as he caught around 17 bass, two days fishing and only cast around 1 to 3 hours each day. Jim also caught a nice string of crappie. It is no trouble at all to catch fish up on Sardis. If you only know how and where to fish and with what kind of bait. Ask one that knows and who always catch a few fish every time they go. There are only a few of what we call our lakes in and around Grenada that are right for fishing.

If you will come by the Shell Service Station I will be too glad to give you the names of these lakes.

Few bream have been caught on roaches, red worms and popping bugs on these lakes, as well as crappie.

Monday evening two Hamby's and Jewel Carpenter left Grenada around noon for Clear Creek and all three practically caught the limit of crappie and several of them weighed 2 lbs. This is the best string that has been caught up to this date.

FARMING is our BUSINESS too!

It's our job to help make farm work easier and better paying. That means doing a lot more than just selling tractors and implements; it means that we must make farming our business, too.
That's why we like to spend as much of our time as we can out visiting our farmer friends. That's how we learn why and how one farm is different from another . . . and see how the many different problems can be licked.
If we haven't been around to see you lately, we're hoping to do it soon. We'd like to get better acquainted . . . both with you and your farm. The better we know you, the better we'll be able to serve you.
Meanwhile, next time you're in town, drop in and see us. Lots of folks do. You'll be welcome.

Our Living Lord

Lesson for April 5, 1953

WHAT does Easter mean? It is a question we may well ask ourselves each year. The visitor from Mars might have a hard time answering the question for himself. He would see Easter sales advertised in the department stores and he might think Easter was a name for a special kind of bargain. Or he would hear about an Easter parade, or he would look at one, and he would conclude that Easter is a time mainly for showing off new clothes. Or on a college campus he would hear about the Easter vacation, and he might suppose that it is just a name for a holiday from work. Then he might come on a flock of children hunting for Easter eggs, and he would suppose that Easter meant "gaily colored." As a matter of fact, even if he went to church, he might get strange ideas about what Easter means.

• • •

Springtime And Roses

To hear some people talk—yes, and even some sermons—one might fancy that Easter is a festival to remind us all of springtime. To be sure, nature reminds us in many ways. The days grow longer, the nights shorter; flowers begin to scatter over the hillsides, the grass grows greener every week.

Dr. Foreman

In the far northern states there are heavy thaws, more snow melts than falls. In the far southern states warm weather has already come, the roses are in full bloom, visitors from the north are coming down to look at the famous gardens in Charleston and Mobile and other places.

Is Easter just a way of celebrating springtime in church? The birds, the roses, the Easter music—are they all alike the signs of spring? Is Easter a symbol of the resurrection of dead nature, is Easter a sign that nature never really dies, that warmth follows cold, that when winter comes, spring is not far behind?

No, this is not it. For if this were all, then when the last winter comes, when the whole earth grows cold—or perishes in collision with some flaming sun—then what becomes of spring? No, all springs will end some time, when the world ends. Easter celebrates something that will outlast all the springs of this world.

• • •

Life After Death

Listen again to the talk in church, to other sermons, closer, much closer to the Easter truth than all the talk of springtime and roses. You will hear much said about immortality, about the life beyond this life, about the "beautiful isle of somewhere." Easter, it is said, is to remind us that we are immortal souls; that beyond this life is another one, that no soul ever dies.

Well, it does remind us of this. But suppose that were all? The mere belief in immortality is not by itself religious. Look: nearly everybody around you believes he will be living tomorrow. Does that make everybody religious? You know it doesn't.

Now suppose everybody believed he would be living, somewhere, somehow, a thousand years from now; would that make everybody religious? Of course not. Suppose it is true that no soul ever dies? That may well be a horrible thought. There may be (and most Christian churches believe sadly that there are) persons long since gone from this world to hell, who cannot die but who wish very much that they could.

Immortality, Christians believe, is a fact; but believing in that fact alone, all by itself, is not necessarily religious and it may be no comfort at all. Easter must mean more than this!

• • •

Lord Of Life And Death

The real meaning of Easter cannot be expressed by any sentence that leaves Jesus Christ out. Easter celebrates this: He is risen, Christ is risen indeed. This means, of course, much more than that once upon a time there was a man in Palestine who came back to life after being dead some 36 hours.

What we Christians mean by it is that the same person we call Teacher and Master and Saviour and King is the Lord of life, of life itself.

Town Talk

BY FED ROBINSON

Up in Pittsburgh a Brewing Company advertises their beer with this slogan: "It made its way by the way its made." Well, we never found out how the beer was made as we didn't partake of it, but the slogan was interesting. There's a lot of people like that - they have made their way by the way they are made - and that can be applied to the successful and to the failures. In fact the degree of success a man makes is almost entirely due to the way he is made. On two recent business trips to New York City and Chicago, we were privileged to be associated with some very successful men, and as one observes these top rank executives it is plainly seen they are made of a little different kind of stuff than some other men we know. There's that quality of REASONABLENESS about them. They seem to approach business problems with good sound reasoning attitude. So lately I have been making mental notes of individuals I know in respect to their willingness to REASON out a problem rather than hold fast to one attitude even though it may choke them to do so.

The Bible says, "Come now and let us reason together, saith the Lord" and you can't beat that for wisdom if its an amicable relationship you seek. Men who have already succeeded almost never mention the amount of work they do from day to day, but rather weigh and consider the amount of GOOD they can accomplish. Whereas a LITTLE man will be sure to measure everything by the amount of work it requires and he is just not willing to put out the effort. Well, it all depends it seems upon the way men are made and they get where they are because of the composition of their make up. Then too men make their way in life by the kind of thinking they do and by the influences of those with whom they associate. But fundementally we think, we do make our way by the way we are made and fortunately we can greatly change the way we are made with the right kind of thinking and the right kind of environment, plus a desire to change.

There's an old Abraham Lincoln story about a blacksmith who felt the urge to invent something new. He would time after time heat up a piece of steel and he would hammer away on it and then he's decide he would not make that but would change it to something else. But soon the metal would get cold and when he couldn't work on it any longer he would say well, I can always make a fizzle and he's drop the metal in the water barrel and sure enough it would fizzle. It would be much easier on our heartstrings if we could determine early in life just what course we wanted to take and presist on that course whether it would be a preacher, a peddler, a plowman or a plumber. This is why probably so many schools these days have a strong vocational guidance department. A man simply doesn't live long enough to master too many trades.

I laughed at this one: An Army sergeant from down Arkansas way was lining up a company of soldiers for an address by his lieutenant. "Lieutenant Jones is going to give you an educaitonal talk on Keats, but I don't suppose you jerks know what a keat is."

Selected: The selfsih man may eat his bread in solitude; but if he imagines that he is in debt for it to nobody, he is a fool. No man is really independent in the matter of his daily bread. If you had to plant, cultivate, harvest, bill and bake your bread all by yourself, you would starve. By the time the loaf has reached your table, hundreds of human hands have put vital touches upon it. —Fed.

SEEN, HEARD & TOLD BY THE EDITOR

We cannot but speak the things which we have seen and heard. Acts 4:20

I wish I knew more details so I could say more about it. I am referring to a boy named J. D. Keeton who, I recall, Uncle Greek Cunningham sorter took under his wing about 25 years ago. He was handy with tools back in the Model T days and now, I understand, he is farming a big lot of dirt, land in cotton, corn and soybeans, he has married and he has some efforts to do. I'm sure will fit any boy who started broke. A year or so ago he farmed Cook's Dependence near Pittsburg. He once worked on the road for me when I was supervisor. I don't know precisely what kin J. D. is to Jim and the other Grenada Keeton's, but he is some distant kin. All of them could be proud of being kin to this boy who, with no pull, influence or money has raised himself in the affairs of the community, and I am too. Nor do I now know exactly where he is in the delta.

The quartet tables were draped with eyelet embroidered linen cloths, centered by cut glass bud vases holding ferns and a single radiance rose. Place cards were tiny individual mirrors with names inscribed.

The large living room was decorated with California gold iris, soft hued lilacs and pink roses.

Eight young ladies were guests.

Ann Taylor wore a gray and pink print and her nosegay was pink carnations and sweet peas. Both costumes were trimmed with white eyelet ruffles.

Mrs. D. O. Carlisle, president, presided during the business session, and Mrs. Louise Jordan, in charge of the afternoon program, gave a most interesting sympolum on 100 iris selections made by the American Iris Society, for 1953. She also displayed colored pictures of the first 10 iris named, giving their history. She then read a letter of instructions on Iris culture, written by George Mather of Maryland. This letter encouraged the garden arrangement of flowers as well as for bouquet arrangements.

Following the program the hostesses served sherbet and sandwiches.

At the regular social meeting of the Pilot Club, Thursday, March 26 at the Monte Cristo, the members had a pre-view of what might be seen at the District Convention to be held in Baton Rouge, La. April 17-19.

After the dinner served to 22 members at a table beautifully decorated in Easter motif and flowers the president, Miss Lucille Cook welcomed two new members, Mrs. Gladys Honeycutt and Mrs. Mabel Harris and also a guest, Miss Esther Williams, a Dubarry representative.

The publicity committee Miss Elizabeth Jones, Mrs. Markalita Long, Miss Edith Ball and Mrs. Min Grimes were hostesses of the evening.

The poster used was entitled "Put on your Easter Bonnet for the Pilot Parade." A road map with the routes to and from Baton Rouge was displayed. Points of historical interest along the way were pointed out. A map of the city and of LSU campus was presented the group. It is hoped that many of the members can go to the convention, and see the lovely country between here and there.

SEEN, HEARD & TOLD BY THE EDITOR

We cannot but speak the things which we have seen and heard. Acts 4:20

Air Cadet, beg pardon, 2nd Lt. P. W. Criss, Jr. was in the office sady to change his address, his rank and his expiration date. There is either too few quarters or too many airmen that he now lives in a modern motel near Waco. It's a grand war. With him was another recent graduate, a young fellow named Johnson from West Virginia. They got a look-see at a country newspaper shop which aint nearly so grand as the army, but it gets the job done. If Johnson lives on Highway 119 thru West Virginia, I'll never see his home, because Mabel and I climbed over 119 thru West Virginia ONCE.

See where our esteemed associate in the country newspaper field, the Conservative of Carrollton, has struggled thru 89 years and headed for its 90th year. How country newspapers get by, nobody knows, but they do.

We got out our Welcome Mat the other day to use to welcome Mrs. Mike McClamroch, a new subscriber. If we did not cut off some folks who dont pay up, we would not have room for those who cry for the gcw.

Mabel has been so full of business here lately that, while it would be inappropriate to call her Mr. Kirk, we can at least call her Mrs. Kirk.

Off in the future somewhere I am going to give Kirk a good write-up, calling him Grenada's one-man "industry."

I know that Pop Saunders is just ghashing his teeth wanting to get to Fish Lake.

We had a regular comedy of errors with Brother W. J. Lightsey of Laurel, Route 2. We have not seen him since about 25 years ago when he boarded with us at Oxberry while he was cruising timber in the area. He became just one of the family. For many years, we usually excanged Christmas cards. Often we would send him a Christmas edition of the GCW. Last year, he expressed a desire to subscribe for the GCW. We put him on the mailing list and mailed him a bill. BUT we put him on the mailing list as L. L. Lightsey and, when Dorothy sent the bill, on the mailing list as W. L. Lightsey Until this week, the gentleman who WANTED the GCW never got it, nor the bill. Some other Lightsey has been getting the GCW. The Postmaster at Laurel was instrumental in getting the RIGHT paper to the RIGHT Lightsey and all of us should be happy now, at long last.

We have published this before, but a new crop of readers and a new crop of folks move in every now and then, and the tale will bear repeating. It is about Louie Friedman, the man who saved the Masonic Temple from bankrupcy. All one can see to day is a handsome building, free of debt. But, during the depression years, creditors were crying for their money and there was no money to pay up. Friedman made it his business to try to work the thing out of debt. He devoted more attention to saving the temple than he did to his own modest business. At one time, he actually ran a bowling alley in some idle space there. He caused a barber shop to move into the basement and also a cafe and bus station. He did anything honorable he could to get a little more reveune. That the Masonic Temple today is a going concern, free of debt, is due primarily to one modest man, Louie Friedman.

Down on our place at Oxberry, Mabel, Whyte Jr. and I are fixing to quit the 100-years Whitaker practice of killing grass and to start to using grass. So far, we have five bred cows and have the wire on the ground to get about 240 acres under cattle fence. The Whitakers have been killing grass in this county about a century and are still po', still living on sow belly and still wearing patched britches and living in shacks, and borrowing money.

Go wherever you want to go and you will find the grass killer in a helluva po' fix, while his neighbor who USES grass lives in fine houses, drives good cars, eats well and wears fine clothes instead of rags. The State of Mississippi should make it a crime to plow up a pasture.

And, by the way, I am looking for Claud Shaw, who now lives on the Bob West farm across Bogue, to make some fine improvements in what was once a very fine piece of property, but somewhat neglected since old man Bob died.

Two of Kirk's hands out on the Dogan old place have a new rinktum in herding cattle. Instead of herding them with horses, those Negroe men were riding Fordson tractors and making a fair job of herding them across the highway.

Cliff Hamby says Mississippi is in a helluva shape with cotton farmers going west, cattlemen coming back to Mississippi, Negroes going north and yankees coming south.

This is an old tale, but, to me at least, a funny one. A lady whose husband was off in service got up one morning, dressed, let up the shades, made up the bed and took the hood off the parrott's cage. About that time, her soldier husband called, telling her he was on a short, unexpected leave home, whereupon the wife pulled down the shades, turned down the bed and put the hood over the parrot's cage. Speaking broken English the parrott remarked, "This has been a helluva short day."

It's hard to keep up with Pony Costilow who moved from Wesson to Nason and new is on a route out of Big Creek, but he paid up OK.

H. A. Denson sent in a check for three dollars from Vicksburg. When in Vicksburg recently, we looked in vain in the phone book for his name.

Tommie Darras offers to help a nice man find a nice, young wife with 3 little daughters. No, he aint trying to get rid of Melba. Even Tommie has more sense than that.

Mrs. Lucy Duncan came around and got daughter Ann's expiration date and address changed. Ann is now at the University of Virginia, Charlotteville, Va.

One remarkable thing about the Fashion Shop, next door, is that Mrs. Morrison and her daughter got a piece of paper and drew off just exactly how the interior was to be arranged. They had no architect and, apparently, did not need one. Apparently they are not going to break the Green Street cardinal rule - dont go broke on Green. They seem to be doing pretty well.

Fred Summons, new owner of the Pearson old property, is anxious to know where that spring Dr. Frank Smith said was on the property, is located. Maybe we will have to get Dr. Frank over to Grenada so he can point his finger at the spring.

I dont guess we will have to write about, "Nobody killed at the dangerous 8-51 crossing this week "any longer, as the highway department looks like it is fixing to change the crossing. It was awful while it lasted.

"SEEN, HEARD AND TOLD BY THE EDITOR"

We cannot but speak the things which we have seen and heard. Acts 4:20

On the whole, it seems that Roy Adams has been doing a good job as district highway commisioner.

As I look, the latest entries on the cash book are two renewers. Mrs. W. G. Brock, a charter member at West, Mississippi, and Mrs. L. G. Carpenter of Grenada.

I reread Major Archie Stubb's letter which appeared last week. He, wife and kids seem to be having a grand time in the army. The army must have transformed Okinawa into a paradise on earth.

I still say that it is not part of the legitimate duties of the Fire Department to summons folks for prayer. Historically, a fire alarm calls folks to fight fire, not fight the Devil.

Folks all over the country are laughing at Grenada for using its fire alarm to call folks to prayer, not that prayer is a bad thing at all.

I have yet to see a single person stop as if in prayer when the fire alarm sounds. If he prayed at all, he prayed at all, he prayed walking about, eating pop corn, or dipping snuff, or whatever he was doing before the alarm sounded.

Popeye would be very happy in Sharkey County. They have FIELDS of spinach there, not mere PATCHES. I saw a lot of it just outside Rolling Fork of that county.

The Cohen wedding is definitely over as Albert took off that fancy bow tie he wore for several weeks.

I personally like Albert Clark, supervisor of the pint-size beat, Beat Three, but I dont think I will ever like seeing Albert getting as much money to maintain a FEW miles of roads as does such fellows as Fox in Beat 5, Bowen in Beat 2 and Sanders in Beat 1, which have MANY miles of roads to maintain. The FAIR way to divide that money is to dvilde it on the number of miles of roads to be maintained. If one fellow has twice as many miles as the smaller one, let the bigger fellow get TWICE as much money. But a more permanent solution can be found either in REdistricting the county,so as to make the several beats more nearly equal, or to change over to the county-unit system. The present system of dividing the money into five equal parts is the EASY way, but not the JUST way. And, in justice to all concerned, the supervisors now serving did not devise this scheme of division; but merely inherited it from their predecessors in office.

If either of the supervisors should get a little "edge", I would say that Ben Sanders, who has to provide municipal services to built-up sections of Beat One, outside Grenada, and Bardy Fox, who has to provide such services to an unincorporated community, Holcomb. Merely dividing the money by 5, just dont make justice, as most reasonable people can readily see.

The Baptists have set a goal of 1012 to be at their Sunday School on April 12, the 2nd Sunday in April. In such drives, I am usually available to make "one more". After all, we would strave to death if it were not for the Baptists.

There's been a peaceful revolution going on, on the Dubard holdings west of Grenada. In former years, one usually saw at this time of year a vast expanse of either dead cotton and corn stalks or an expanse of broken land. They have about quit killing grass and, today, one ses a small amount of land in dead stalks, but most of it in green grass with cattle industriously nibbling away at the grass.

Pete Gray not only has a lot of cows but he has a mighty handsome little red-hedded boy.

A red-hedded boy cropped up in Joe Ward's family. Joe never did care mucch what he said so when asked where that boy got that red hair, Joe said "he must of got it from his daddy; he did not get it from me."

One man's theory about why they continue to blow the fire whistle at 6 p. m. is this: that Greenwood, Tupelo and some other hick towns do it, and Grenada is copying them. Just a theory, and not necessarily, a fact.

We really should let Rose Kosman get the GCW for $2.97 because we never have to spend 3 cents to mail her a statement. She is smart and knows what those little numerals on her paper mean and never waits to get either a dun or a blank paper.

WHAT WILL IT COST?
The price o fevery prescription compounded by us is determined by the cost of the ingredients plus a nominal fee for professional services. This is the only fair and square method for figuring the cost of any prescription. It assures you that no corners are cut in order to cut a price, and it also acts as a brake on unnecessarily high prices When you bring your prescription to us, you know that the medicine and the price will both be RIGHT.

I love Electric Living...
because Electric Living is Modern Living
I said to Jim one fine day
An automatic washer will pay its way.
And when I told him what it would do,
He ordered an electric dryer, too.
Finally, I said what could be finer
Than to have an electric ironer.
Now, my laundry has all three
And I'm as happy as can be.
No home laundry is complete without that wonderful time and labor saving appliance: an automatic electric ironer. Even such normally difficult items as shirts and blouses can be ironed easily and professionally . . . while you sit relaxed and comfortable, letting the machine do the work. Let your electrical appliance dealer help you plan your complete electric home laundry.

JITNEY-JUNGLE RECIPE OF THE WEEK!

HOW TO COOK A HUSBAND

(From DeKalb, Miss. Cook Book)

Many husbands are spoiled by mismanagement. Some women keep them in hot water, others let them freeze by their indifference; some keep them in a stew; others roast them, and some keep them in a pickle. No husband will be tender and good managed this way. But they are delicious when properly treated. Be sure to select your husband yourself, as tastes differ. See that done. Add a little sugar, but no vinegar or pepper. A little spice improves them but must be used with judgment. You cannot fail to know when he is done. If directions are followed you will find him agreeable. He will keep as long as wanted unless you become careless and set him in a cool place.
